Future Skills Prime (NASSCOM)

SOFT SKILLS

Communication · Teamwork
Problem Solving · Quick Learning

LANGUAGES

Kannada · English · Hindi

PROFESSIONAL SUMMARY

Junior developer with a solid foundation in HTML5, CSS3 and JavaScript, plus hands-on experience with Java and MySQL. Builds dynamic, interactive web pages through DOM manipulation and event handling, and looks to grow in a full-time Full Stack role.

EXPERIENCE

Developer Intern (Freelance)

Meikural Edutech India Private Limited · Chennai

- Supported the team with development, data and maintenance tasks on the company's web platform.
- Used AI-assisted tools to complete tasks efficiently and learn the existing codebase.

Java Full Stack Intern Feb 2026 - Apr 2026

Sri JCBM College + MTD Mysore · Mysuru, Karnataka

- Trained in full-stack web development using Java and MySQL.
- Built RESTful APIs for backend functionality and data management.
- Integrated the APIs with the frontend for smooth frontend-backend communication.

PROJECTS

Smart Forms

Final Year Project · Java · REST APIs · JWT

- Built a Typeform-style form builder where users create forms with conditional, branching question flows.
- Developed the backend REST APIs with secure JWT authentication for form creation, responses and data management.

Dynamic Web Projects

HTML · CSS · JavaScript

- OTP Generator:** creates a random one-time password on click and shows it on the page using the DOM.
- Calculator:** performs core arithmetic operations through button click events.
- Stopwatch:** start, stop and reset timer with live display updates.

Static Web Pages

HTML · CSS · github.com/SanvithGG/html-practice

- Built responsive page replicas using HTML and CSS: **Blinkit**, **Netflix**, **Facebook**, **Knighbite** (multi-page restaurant site) and **Biryani By Kilo**.
- Practised CSS layouts and effects: flexbox, media queries, responsive navigation, animations, transforms and pure-CSS shapes.
