Summary

Junior Web Developer with hands-on experience building full-stack applications using React.js, Spring Boot, Spring Security/JWT, and MySQL, plus REST API development and workflow automation with n8n.

Skills & Technologies

Core Concepts: REST APIs, JWT Authentication, Workflow Automation
Languages: Java, JavaScript
Frameworks & Libraries: React.js, Spring Boot, Spring Security
Web Technologies: HTML5, CSS3
Developer Tools & Platforms: Git, GitHub, Docker, n8n, Supabase
Databases: MySQL

Experience

Junior Web Developer Intern

Meikural Edutech India Private Limited

Chennai, India

Apr 2026 – Present

- Built and shipped production front-end interfaces and a full responsive website using React.js, consumed by a Java Spring Boot backend.
- Developed an AI-powered image generation feature end-to-end using a REST API pipeline, with results persisted in Supabase.
- Designed n8n automation workflows, including an email-to-Discord notification pipeline that removed manual status updates.

Projects

Smart Forms — Branching Form Builder with Conditional Logic Engine | [GitHub](#)

React.js, Spring Boot, Spring Security, JWT, React Flow

- Engineered a full-stack branching form builder with a visual drag-and-drop canvas (React Flow) and a custom DAG-based BranchConditionEvaluator in Spring Boot to resolve conditional question paths in real time.
- Implemented secured REST APIs using Spring Security and JWT for form management, with separate public endpoints for anonymous respondent submissions.
- Led a UI/UX redesign with a custom design system (typography, color palette, component motifs) to differentiate the product.

Smart Grocery — Grocery Management System | [GitHub](#)

React.js (Vite), Spring Boot, Spring Security, MySQL, JWT Authentication

- Developed a full-stack grocery management application with role-based dashboards, Google login, and AI-driven catalog suggestions.
- Implemented inventory tracking with low-stock alerts, backed by backend test coverage across service and controller layers.

Hotel Management System | [GitHub](#)

React.js, Spring Boot, MySQL, JWT Authentication

- Built a full-stack hotel management system with JWT-based authentication and an admin dashboard.
- Implemented real-time room availability tracking and guest management through a responsive interface.

Education

Sri Jagadguru Chandrashekhara Bharathi Memorial College, Sringeri

Bachelor of Computer Applications (BCA), Kuvempu University (CGPA: 9.03)

2023 – 2026

Certifications

Internship in Java Full Stack (React.js, Spring Boot, and MySQL)

Dept. of BCA, Sri JCBM College, Sringeri, in association with Mysore Trainers and Developers (MTD)

Feb 2026 – Apr 2026
